b.arch, aiaa
director, principal architect
archohm consults

sourabh gupta

Sourabh Gupta graduated in architecture, from the School of Architecture, CEPT University at Ahmedabad in India. With the insight provided there by the best in the realm of architecture, coupled with a stint in urban design from the architecture school at TU delft, the Netherlands and most importantly, propelled by a compulsive need to travel, explore and design, Sourabh initiated studio archohm.

Having won and executed a series of design competitions and commissions, archohm has grown in leaps and bounds in the last decade and a half. Today, its portfolio has a stimulating mix of typologies, scales and sectors of architectural works, infrastructure, furniture and product design, design research and system design. Having transcribed a full circle with its own design education and publication extension, it strives to be a one-stop-shop for almost everything in the world of design.

The studio's inter-disciplinary nature attracts an eclectic mix of people from backgrounds in architecture, urban design, product design, graphic and academia to induce a novel and unconventional character and a perspective to design.

As an experienced firm, albeit with a young and energetic brigade which Sourabh leads from the front, the onus of going beyond the brief and getting to the root of issues in order to make a deeper impact

through meaningful design experiences is engrained in archohm's DNA. There is an ever growing sensitivity towards a gamut of social, environmental and ecological questions resulting in credible, viable, and innovative responses in all typologies of work but particularly in the public, institutional and infrastructure sectors. However, at forty-two his vision and a keen eye for detail enables him to design a city and a chair on the same day, with the same fervor.

Sourabh's continued initiation and mentoring of archohm initiatives such as the design village (a design school), design factory India (an experience design wing), archoforum (workshops with iconic firms), the archotour (the intense ten day annual expedition to design destinations) and the archohmeter (the periodic design newsletter) speaks of his genuine desire to indulge the design community, the academic fraternity and the industry in meaningful dialogues and form global collaborations. Apart from his contribution to national and international design events, forums and publications, Sourabh is the recipient of many prestigious international and national accolades in almost all spheres of his works.

Believing in living 'life through design', Sourabh enjoys badminton, Nusrat Fateh Ali Khan and an occasional Hoegaarden. An avid reader and a discerning 'wanderer', he is on a perpetual design expedition.

qualifications, experience and memberships

- b. architecture, (2000)
school of architecture, cept, gujarat, india

publications

architecture+design-an indian journal of architecture - apractice breaking design barriers

up360-building a state is building a state of mind

architecture and attitude-a contemporary indian perspective, studio archohm talks about the architecture of an architectural of ce that produces more architecture.

archohm in 365 is a day-by-day documentation of 'work in progress', of the making of studio archohm-the building in precisely 365 days, start to nish and the spirit captured therein.

archohm @ ten is a simple but genuine way of sharing the philosophy of the studio, created to celebrate a decade of its architectural journey.

ao@xv/d , created by the design factory india, is a coffee-table book that preserves the events related to the exhibition- of works and the building, commemorating fteen years of archohm's architectural practice.

the tdv dna book is a chronological and sequentially progressive mapping of the extensive design expedition undertaken to align with and understand the evolution of the design village. describing the road travelled, the methodology complied and the mindset conditioned, this manifesto hopes to inspire and inject the tdv dna into those who aspire to take this vision forward.

'fikr' is a creatively, innovatively and sensitively designed publication of the design factory india, which boldly and graphically expresses the repositioning of fundamentals and essence of islam.

archometer is a monthly newsletter that enables archomites the freedom to express their design related thoughts-concepts, project details, travel experiences and news pertaining to archohm and the design world.

mandi this book focuses on the mandi or the wholesale food grain and agro-produce market of uttar pradesh.

addressing arga captures the stories of the many scales at which and the diverse ways in which agra-the city of the taj and beyond it, has been engaged with, by studio archohm.

museum of socialism attempts to capture as vividly and in as detailed and sequential a manner as possible, the experience and the content of the museum of socialism-the jayaprakash narayan interpretation centre at lucknow whose architecture has been designed by studio archohm

lucknow development authority it informs readers of the number and diversity that have been undertaken to translate these dreams into reality and how the challenges pertaining to each have been met headlong.

tdv typeface narrates a story of adventure, fun and tenacity into the realm of typography. only, the story is unique, for it weaves as many as twenty six stories- exciting in themselves, into a new one.

@75 the book is an attempt to capture the moment and the mind of mr. bachchan on his 75th year, through a calendar of 356 days.
